SUMMARY

Full-stack Software Engineer delivering strong problem solving skills across the entire software lifecycle. Strong cross-functional collaborator, with ability to both lead and take direction from stakeholders and team members. Ability to gather complex technical requirements and translate into project scope of work and inform prioritization.

TECHNICAL & INTERPERSONAL SKILLS

Languages: HTML, JavaScript, CSS, Python, SQL, Mongo, JSON
Libraries and Frameworks: React, Express.js, Django, Bootstrap, Semantic UI
Databases and Other Technology: PostgreSQL, MongoDB, RESTful Routing, JSON API
Interpersonal skills: Communication, teamwork skills, and adaptability, collaboration with cross-functional teams and stakeholders, translating complex technical concepts into clear, accessible language for non-technical stakeholders

TECHNICAL PROJECTS

Me n U - [GitHub](#) | App - React, Node, JS, Express, MongoDB, CSS
Me n U is a vibrant platform where culinary enthusiasts can explore, share, and savor a world of diverse flavors, recipes, and cooking tips.
- Collaborated with a team of 4 to develop navigation to enhance user experience for Me n U project.
- Led development of a navigation component to support enhanced website navigation, ensuring smoother user experience and improved accessibility.
- Developed recipe-sharing capability, with a chat and social media feature and collaborative feed similar to Meta, allowing users to share their culinary creations and tips with the community, fostering a sense of belonging and collaboration.
- Integrated a global cuisine exploration feature, enabling users to search and discover diverse flavors and cooking styles from around the world, promoting cultural exchange and culinary creativity.

Astronomy Photo Of the Day - [GitHub](#) | [App](#) - React, Node, JS, Express, MongoDB
App brings you stunning daily images of the cosmos, igniting user curiosity about the universe.
- Implemented full CRUD (Create, Read, Update, Delete) functionality, allowing users to manage entries with ease, ensuring a seamless (UX) user experience.
- Ensured entries adhere to the familiar format of NASA's API, maintaining consistency and user familiarity with the content.
- Created a user-friendly interface for reading, adding, editing, and deleting entries, enhancing user engagement and interaction with the app.
- Designed the application to handle the high traffic associated with NASA's Astronomy Photo of the Day, ensuring reliable performance and accessibility for users, while maintaining KPIs and website speed metrics.

CalorieWise Selector- [GitHub](#) | [App](#) - HTML, CSS, React, Node, JS,
CalorieWise Selector helps you make informed food choices by providing calorie information for a wide range of foods.
- Implemented a database of food items with their corresponding calorie information, enabling users to access and compare calorie content easily.
- Developed a search feature that allows users to quickly find specific food items and view their calorie information, enhancing the user flow and user journey across the application.
- Designed a user-friendly interface (UI) that categorizes and displays calorie information in a clear and organized manner, making it easy for users to make informed food choices.

EXPERIENCE

Logistics & Statutory Management Associate, Petronas Carigali Sdn. Bhd.   Jan 2018 - Aug 2023
- Conducted complex analysis of data related to shipment scheduling, routing, and tracking.
- Identified areas for process improvement within the supply chain and developed solutions to increase efficiency.
- Created detailed reports on logistics activities that included strategic plans and recommendations for improvements.
- Provided technical support to vendors and customers related to shipping processes and documentation requirements.
- Collaborated with cross-functional teams across departments to identify opportunities for improved supply chain management practices.

Sourcing Analyst, Petronas Carigali Sdn. Bhd.   Sept 2009 - Jan 2018
- Analyzing and improving supply chain operations.
- Resolving day-to-day supply chain issues and promoting operational consistency.
- Evaluating procurement metrics by measuring supplier performance.
- Identifying project scopes, schedules, and costs.
- Establishing effective communication channels with customers, vendors, suppliers, and shipping companies.
- Negotiating better contracts with existing suppliers as well as sourcing new suppliers.

Senior Officer, Police Department
- Provided strategic direction and oversight to staff, ensuring successful completion of assigned tasks.
- Monitored quality control standards within the department, taking corrective action when necessary.
- Implemented systems to track employee attendance records accurately.
- Ensured compliance with all applicable regulations governing activities within the department.

Sales Manager, Hundai-KIA Center
- Developed and implemented sales strategies to increase market share.
- Identified and developed new markets for products and services.
- Established relationships with key clients, while maintaining an existing customer base.
- Analyzed data to identify trends in customer behavior and develop plans accordingly.
- Managed daily operations of the sales department, including supervision of staff members.

EDUCATION

Software Engineer Immersive, General Assembly   Jan 2024 - Apr 2024
Full-stack software engineering immersive fellow in an intensive, 12-week, 500+ hour program focused on product development, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

Bachelor of Science, Marketing Management and Research, University of Management and Economy
